

Dear Commissioner:

I encourage you to allow NJ to maintain its current standards with respect to the Do Not Call (DNC) list. Prior to the implementation of the DNC rules, we received many unsolicited and unwanted calls at all hours (daytime through ~9pm). These calls were annoying, disruptive, and unwanted. I often work at home and was continually amazed at how many calls were made in an attempt to sell me something. I have never purchased anything based on an unsolicited cold-call.

Some of the tactics that have been used have been quite sophisticated. Given the high level of debt that is carried by Americans, I believe that restricting these bothersome calls has the added advantage of preventing many people from buying unwanted goods and services...and potentially adding to their debt load.

Again, I strongly urge you and your colleagues to allow NJ to keep its current Do NOT Call program.

Best Regards,

H.C. Skip Jonas
